THE Placer Herald, of February 1, is

authority for the annexed statement: Two men (whose names for the present

we suppress, as well as the exact lo-cality where the treasure lies) have struck a fabulously rich quartz lead, less than three miles from here, within the last few days. We have seen a fifteen-ounce lump of the rock and should say that fully six ounces of the weight is pure gold. On Thursday last they had out some 200 or 300 pounds of this rich rock, which, if equally rich with that we saw, must contain about \$100 to the pound. Don't be alarmed, reader, we are not going to say that their 300 pounds of rock will pan out \$30,000 untill we see it all. The quartz is a dirty white color and lit crally sewed together with a pure, bright thread of gold. They have a shaft down some nine feet, and have traced the ledge by its croppings to this point, and there started the shaft on what seemed to be the richest locality. The discoverers desire to make and secure their locations compleate before making all the particulars public. lars public.

It is said that the Berlin Postoffice is about to introduce an improvement upon the original postal system. A card is to be provided, on which a message may be sent and a reply returned at once. The original sender, by paying the trifling postage both ways, may thus secure an accordance of the person addressed an expert at once, the person addressed answer at once, the person addressed having only to write a line or so on the card when he receives it, and return it to the postman. This is a great conve-nience worth considering in the issue of postal cards in this country.

The Chinese boys, thirty in number, who were brought to the United States last Summer, and who at first were placed at schools in Connecticut and Mas setts, have now all been brought to Hart-ford, Conn., in order that they may be near a Chinese tutor and pursue the studies of their own as well as of this country. The Commissioner, Yung-Wing, during the present year, is about to return to China to escort back a new detachment of thirty more pupils.
